

Spring 2 - Homework

This half term we are learning about some amazing different things. Below are some optional activities you can undertake at home to get involved. Please feel free to share photos on Seesaw and/or bring in your creations to share with the class. We can't wait to see what you learn at home!

Maths

Can you calculate and measure the length and perimeter of a room at home.

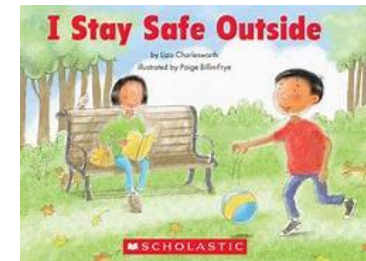

History

To make and build a piece of architecture from the Roman Empire.

PSHE

Create a poster about how we might keep safe when we are outside our homes.

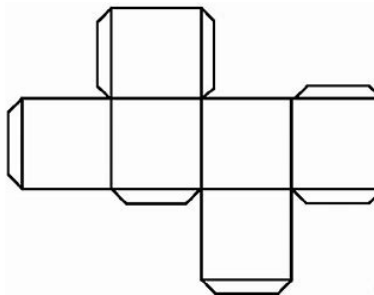

RE

To design a place that would bring you peace.

DT

To explore nets to create a 3D shape.

Writing

To write diary entries about your day. When was it? What did you do? Where were you? Who was with you? Why?
